Mock College Application Folder

*These are the items you will need in order to complete your mock college application. They will be due by the **END** of the period on **Friday, December 11th**. NO LATE APPLICATIONS WILL BE ACCEPTED!

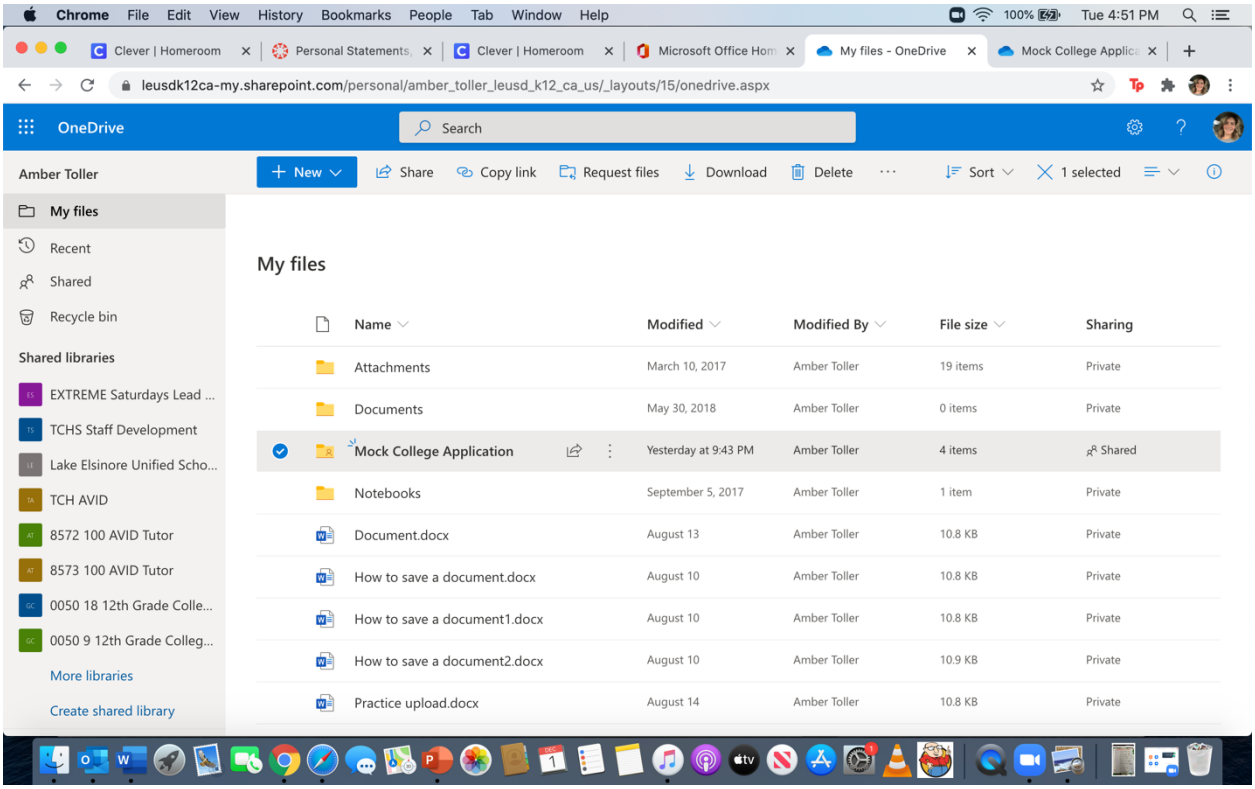
- College Application, filled out
- Unofficial Transcripts (you should have gotten these from Ms. Espinoza back in September). If not, please contact her to receive a copy or you can get your own copy from Infinite Campus.
- A copy of your SAT or ACT score (if you haven't taken either, your PSAT score from last October.)
- Typed Personal Statements (you will be rewriting the two rough draft personal statement. These will become your final drafts.)
- Two letters of recommendation

Because our Mock College Application is virtual this year, you will need to create a folder, either through Office 365 or Google Docs and share that folder with me, via email, with all of these contents inside the folder. **YOU WILL NOT BE SUBMITTING THIS TO CANVAS.** As long as your email is time stamped by 10:51 a.m., it is considered on time. Anything later and you will earn an automatic zero for the Mock College Application Project. The rubric is as follows:

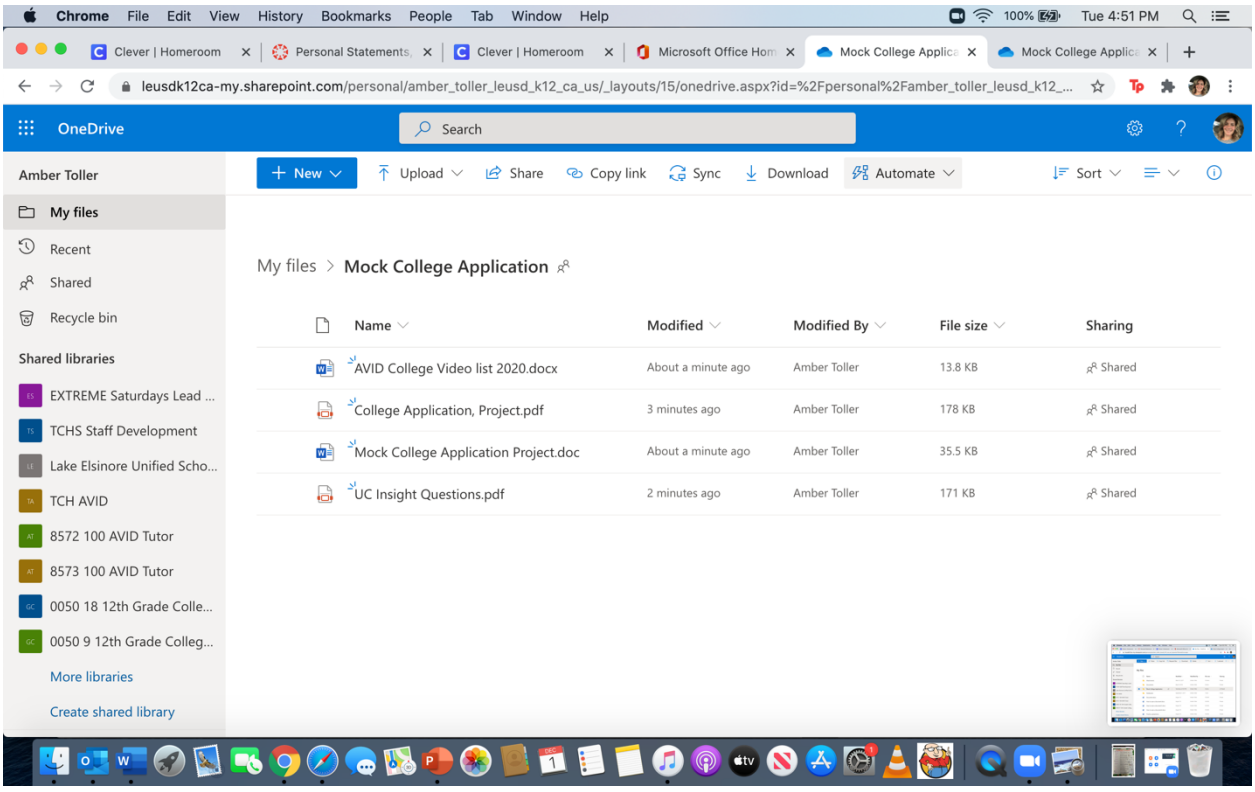
- **Online Folder** _____/50
- **College Application (filled out)** _____/50
- **Personal Statements (2)** ____/100
- **Letters of recommendation (2)** _____/100
- **SAT, ACT or PSAT score** _____/50
- **Unofficial Transcript** _____/50

Total: _____/400

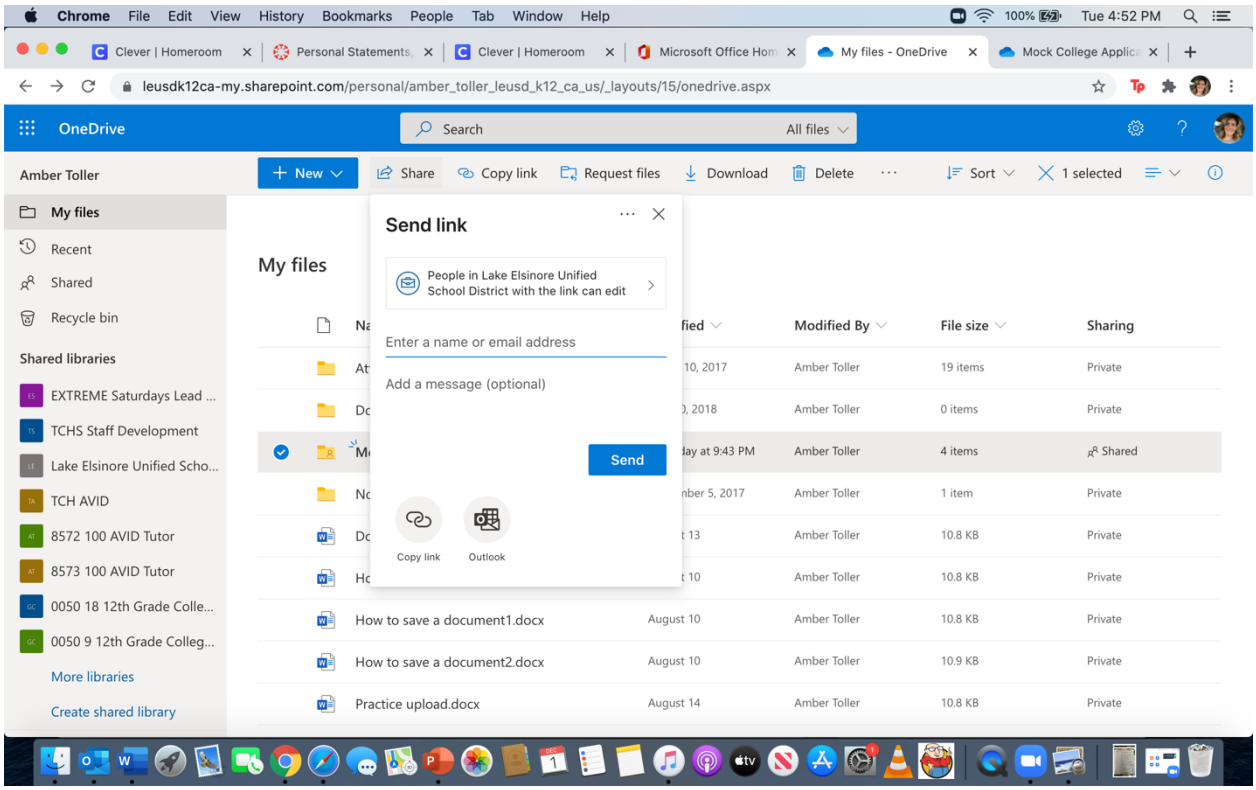
How to share your folder with me:



Click on 'New' in order to create a new folder in your Office 365 account. Title the folder 'Mock College Application.'



Afterwards, you will upload the documents necessary for the Mock College Application inside the folder.



When finished uploading your documents, you will share the folder with me. Simply type in my name 'Amber Toller' and you'll see my picture pop up. Hit send and you'll be good to go!

For your personal statements, they need to look EXACTLY like they do on the following page:

Prompt question

Prompt itself (350 words max, single spaced)

Second Prompt question

Prompt itself (350 words max, single spaced)
